EDUCATION

Bachelor of Technology (B-Tech) in Computer Science and Engineering

Uttarakhand Technical University, Haldwani | Amrapali Institute of Technology | 2023-2026

Diploma in Computer Science and Engineering

Uttarakhand Board of Technical Education (UBTER), Dwarahat | 2020-2023

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), HTML5, CSS3

Frontend Technologies: React.js, Tailwind CSS, Responsive Web Design, UI/UX Design

Backend Technologies: Node.js, Express.js, RESTful APIs, MongoDB, Database Design

Full Stack Frameworks: MERN Stack (MongoDB, Express.js, React.js, Node.js)

Development Tools & Platforms: Git, GitHub, Version Control, EmailJS, npm

Additional Skills: Web Development, Code Review, Debugging, Performance Optimization, API Integration

PROFESSIONAL EXPERIENCE

Frontend Development Intern

IWS (Info Web Software), Haldwani – Offline | August 2025 - December 2025

- Developed responsive web applications using modern JavaScript frameworks and React.js, implementing best practices for code structure and maintainability
- Collaborated with cross-functional development team on multiple mini-projects, conducted peer code reviews, and participated in agile development processes
- Debugged and resolved frontend issues while maintaining code quality standards and implementing performance optimization techniques
- Implemented modern JavaScript best practices including ES6+ syntax, async/await, and proper error handling to improve application performance

PROJECTS

BitForDeal - Auction Web Application

React.js | Tailwind CSS | Responsive Design

- Engineered a fully responsive auction web application using React.js and Tailwind CSS, implementing modern UI/UX design principles for enhanced user experience
- Implemented secure user authentication system with login and signup functionality, utilizing secure password management and session handling
- Designed and developed clean, reusable React components with proper component lifecycle management, significantly enhancing code maintainability
- Optimized responsive design for desktop, tablet, and mobile devices using CSS media queries and flexbox for seamless cross-device compatibility

FoodUI - Full Stack Food Ordering Application

MERN Stack (MongoDB, Express.js, React.js, Node.js) | Tailwind CSS | EmailJS

- Developed comprehensive full-stack food ordering web application using MERN Stack architecture, implementing complete end-to-end functionality
- Implemented core features including user authentication and authorization, shopping cart management, order placement, and payment gateway integration
- Integrated EmailJS library to enable automated email notifications for order confirmations, order updates, and customer engagement
- Designed and implemented responsive, interactive user interface using Tailwind CSS, ensuring seamless user engagement across all devices
- Designed RESTful APIs and integrated backend services with MongoDB database, implementing efficient data management and retrieval mechanisms

CORE COMPETENCIES

- Full Stack Web Development using MERN Stack architecture
- Responsive Web Design and Mobile-First Development approach
- RESTful API Design and Integration
- Database Design and MongoDB NoSQL Operations
- User Authentication and Authorization Implementation
- Version Control and Git Workflow Management
- Code Quality and Performance Optimization
- Problem-Solving and Debugging Expertise
